

At Townfield in Science we will...

Deliver well planned lessons which are researched and in line with the National Curriculum.

Provide children the opportunity to learn scientific concepts through practical enquiries.

Ensure that lessons are well resourced and all children are able to participate.

Encourage children to be enthusiastic and passionate about science

Provide opportunities for children to apply their science skills in other subjects such as DT and Maths

Work independently and in groups to ask and answer scientific questions.

Develop a love for science which will make us question how the world works.

Use our forest school as a place to practically find out about the world around us.

Use a wide variety of learning styles and technology to help us understand

Learn new and exciting things that will make us go wow!
