Game Modes

Single Player

Garage - the questions will only come from the times tables the teacher has set. As pupils start to answer questions, TT Rock Stars works out which facts they take longer on and will give them more of these questions to answer. The Garage is best for getting quicker at a few facts. Players get 10 coins per question.

Studio - the questions in the Studio can be anything from 2x2 up to 12x12. TT Rock Stars calculates each the average speed per question from their last 10 games in the Studio and provides a Rock Status:

Under 1 second = a Rock God Under

Under 2 seconds = a Rock Legend

Under 3 seconds = a Rock Star

Over 3 seconds = a Busker

They earn 1 coin per question and the Studio is a place to improve their speed across all tables.

Multiplayer

Rock Arena – This allows players to compete against all other members of their Band (their Bandmates would need to join the same game in order to compete together). A new Arena game starts every 15 seconds and they race to answer more questions than the others. They earn 1 coin per correct answer.

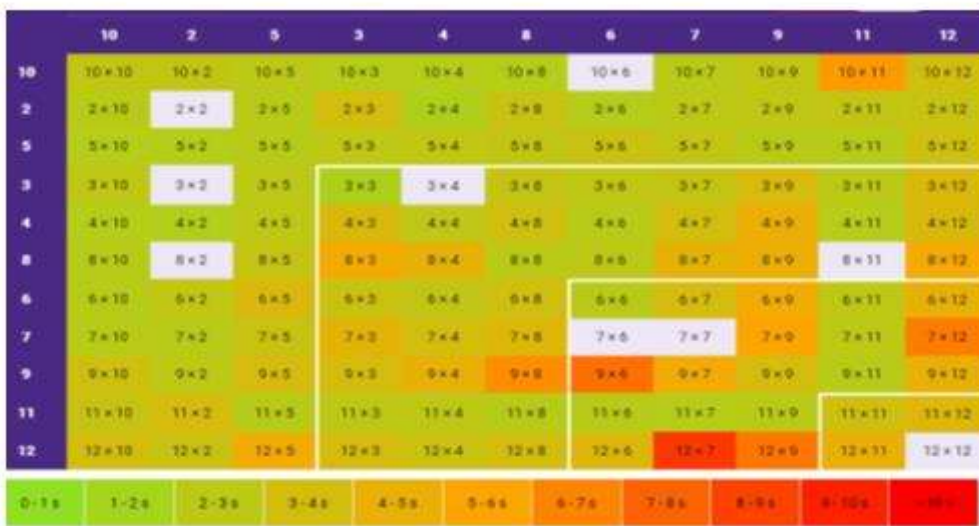

Rock Festival - The Rock Festival games is when players can compete with children from around the world and there is no limit to the number of players who can join a game. This is easy to play at home as it would be tricky to play classmates at the same time which is used in Rock Arena.

Rock slam- This is where you can challenge others or be challenged by another player. You then have 1 minute to complete the set of questions to get a score. If you have more than 1 challenge, you can click on 'play all'.

Statistics
